Trespa North America Announces 2018 Trespa Pura NFC® Distributor of the Year and Customer Appreciation Award Winners

Architectural cladding manufacturer recognizes top performers General Woodcraft, Inc., Universe Corporation and Bamco, Inc.

New York – February 19, 2019 – Trespa North America, a division of Netherlands-based architectural cladding manufacturer Trespa International, B.V., announced its Trespa Pura NFC® Distributor of the Year and Customer Appreciation Award Winners for 2018. The awards recognize companies with outstanding sales performance and commitment to the Trespa brand, and were presented to recipients Universe Corporation and Bamco, Inc, in early January at New York client events. General Woodcraft was honored on Tuesday, February 19, at the International Builders' Show.

"Trespa's market presence is growing in North America, thanks to the hard work and dedication of our distributors and customers," said Michael Provenza, commercial vice president of Trespa North America. "The award winners are a model representation of who we want to do business with and who we want presenting Trespa products to the industry. It's an honor to recognize the vital role they play in our company's success."

Recipients of Trespa North America's 2018 awards include:

- Trespa Pura NFC® Distributor of the Year Award – General Woodcraft, Inc., for its exceptional sales growth and dedication to the Trespa Pura NFC® brand and line of residential siding products.
- Customer Appreciation Award – Universe Corporation, for its outstanding sales performance and dedication to the Trespa brand.
- Customer Appreciation Award – Bamco, Inc., for its outstanding performance and sales growth.
